

# Quarterly Regional Sales Report — FY2026

This report summarizes regional sales performance and top-selling products for fiscal year 2026. All figures are reported in thousands of US dollars unless otherwise noted.

## Regional Sales by Quarter (\$ thousands)

| Region       | Q1           | Q2           | Q3           | Q4           | Total        |
|--------------|--------------|--------------|--------------|--------------|--------------|
| Northeast    | 420          | 455          | 480          | 510          | 1,865        |
| Southeast    | 310          | 295          | 330          | 360          | 1,295        |
| Midwest      | 275          | 290          | 310          | 295          | 1,170        |
| West         | 510          | 540          | 560          | 605          | 2,215        |
| <b>Total</b> | <b>1,515</b> | <b>1,580</b> | <b>1,680</b> | <b>1,770</b> | <b>6,545</b> |

The West region posted the strongest performance of FY2026, growing every quarter and finishing with \$2,215K in total sales. The Midwest region was the only region to post a quarter-over-quarter decline, dropping from \$310K in Q3 to \$295K in Q4.

## Top 5 Products by Revenue (\$ thousands)

| Product         | Units Sold | Revenue (\$K) |
|-----------------|------------|---------------|
| RoboArm Pro     | 1,200      | 1,800         |
| SentryBot Mini  | 3,400      | 1,360         |
| AutoCart X1     | 2,100      | 1,050         |
| VisionScan Lite | 5,600      | 840           |
| PowerCell 9000  | 8,900      | 712           |

RoboArm Pro remains the company's flagship product, generating the highest revenue of any single product despite moderate unit volume. PowerCell 9000 sold the most units overall but carries the lowest per-unit margin of the five products listed here.
